Hard-working and self-motivated junior coder with experience working across the full-stack of web development. I've built a few projects by myself and I'm looking for a role where I can grow and learn from other experienced team members. I would be thrilled to contribute as much as I can to a company that can use my skillset. If my profile interests you, I would love for you to check out my online portfolio!

MOST RECENT WORK EXPERIENCE

Junior Full Stack Web Developer
Freelance

11/2020 - Present *Paris, France*

Achievements/Tasks
- Designing and developing applications according to clients' needs while insisting on improving application performance and SEO
- Built a fully responsive osteopath website in 7 weeks using Vue
- Developed a brochure website for a hairdresser salon using React
- Currently remodelling a website using an all new technical stack with React and TypeScript

Food & Beverage Manager
Generator Hostels
